

WB WIRING BOX ELECTRIC ENCLOSURE

QUALITY | RELIABILITY | AVAILABILITY

Spectrum WB Wiring Box- WB Electrical Enclosure

Designed as an instrument housing or junction box for electrical, electronic or pneumatic components. Provides protection from wind-driven rain, sleet, snow and dripping water.

Bolt-On Lid Option

The lid frame opening is flanged on all four (4) sides and sealed with a weather tight gasket. This increases the strength of the lid openings and prevents dust and liquids from entering the enclosure. Features self retaining stainless bolts to secure the lid. Has 12 pre-punched knockout holes for 1/2" or 3/4" NPT connectors.

WB-12TBO with bolt-on lid

Hinged Lid Option

The lid remains attached to the enclosure when opened for convenience. A quarter turn, wing knob lock with cam latch offers added security. Features 3" wide piano hinge. Has 12 pre-punched knockout holes for 1/2" or 3/4" NPT connectors.

WB-12TH with hinged lid

Standard Features On All WB Electrical Enclosures

The complete enclosure is made from 0.125" thick aluminum alloy type 5052 to provide a strong, corrosion resistant construction. All seams are welded and weather tight. AAR (6) pole terminal block installed.

WB Optional Equipment

Junction Box Stand:

Part No. WB-100
Plate: 8" x 8" x 3/16"
Tube: 3.50"
0.125" WT
27" Long

Junction Box Stand:

Part No. WB-101
Plate: 8" x 8" x 3/16"
Tube: 3.50"
0.125" WT
27" Long
With Slot
